### " Our Birthday.

Twenty-four years ago today The Advocate was born, with Mr. John H. Mason and Dr. C. W. Harris as sponsers. Subsequently Mr. Mason was succeeded by Mr. J. W. Hedden, Sr., and · Dr. Harris by Mr. B. W. Trimble.

Answerable alone for our own stewardship, we wish to say that during the four years The Advocate Publishing Company, Incorporated, has owned it, those in active charge have striven to only clean men and measures and price of all other school books favorably present to the people to firmly stand for all that makes for morality, law and good of der in our midst.

With the experience thus gained and the best equipped newspaper plant and job office in this section of the State, we hope to continue to rejuvenate, regenerate and rebuild The Advocate, making each issue stronger in every department, more instuential an a greater factor for clean liv- fully consider the annual finaning and right thinking. ### We Thank You.

The splendid showing of one Democratic Senatorial nominee, in Montgomery county is due entirely to the efforts of Messrs. Earl W. and G. B. Senff, who led the fight here for the former Governor. In recognition of a ing these young men made a campaign here for Mr. Beckham that resulted in a majority over both his opponents of III votes, and, too, without a cent of corruption fund. They made the fight along clean lines and appealed to the better element of voters only , with the result that their champion was an easy favorite.-Mt. Sterling Gazette.

### Attended Fair.

Esquire T. C. Quisenberry, of Montgomery county, was a visitor in Lexington Friday and attended the Blue Grass Fair. Justice Quisenberry called on County Judge F. A. Bullock and other courthouse officials.-Lexington Herald.

The overwhelming victory of Senator Camden for the shortterm schatorial nomination cannot be considered by him, his friends, say, other than a most flattering testimonial and indorsement of his prospective candidacy for the gubernatorial nomination with which his name has been mentioned frequently, even beore the death of Senator Bradly, which made possible his elevation to the United States Senate, where he has distinguished himself with credit and abil-The friends and admirers of Senator Camden insist that he can give Kentucky a business-

like administration of its affairs and that the vote cast for him in the recent primary was in the nature of a popular demand for him to become a candidate for Gevernor next year as the one man who has well-settled convictions and ideas of State uplift and a different brand of politics. While Senator Camden has all along refused to seriously consider or discuss the gubernatorial nomination, it is well known that the flattering indorsement given him, a new-comer in politics, by the Democrats of Kentucky has made a deep impression upon him, and his friends and supporters feel much encouraged over the prospect of his acquiescence in standing for the nomination.-Louisville Times.

### Is There Graft In It?

One of the most vicious pieces of legislation on our statute books today is our prescut school book law. Last year one could buy a first class primer at retail for ten cents. Under this law one not a whit better sells for twenty-five cents. The has been increased and under this law the teachers must use these books. Every county in the State will, in this way, pay out unjustly thousands of dollars, vet the dealers are forced to sell them on a begarly commission and no blame should atach to them. The thought therefore occurs, who gets the difference?

This, it is claimed, is due largely to the maintainance of an unproductive and very costly poor farm. Following the lead of Shelby and other progressive counties, the court at debt of gratitude of long stand- its last meeting ordered the farm sold and we hope to see a substantial reduction in this item of expense during the present fiscal year.

### Victory Assured.

Kentucky Democracy redeemed herself and honored her most worthy member by nominating J. C. W. Beckham for the United States Senate, as the Interior Journal believed so sincerely that Anent the recent primary and she would. That he will win an overwhelming victory in November there is not the slighest doubt. He has never been defeated where the people had the

### HOW TO DANCE THE ONE STEP

By ODGERS T. GURNEE Illustrated With Specially Posed Photographs

HE one step is the modern renovation of the much discussed turkey trot. In spite of the fact that both dances are often classified under the same general name. they are as different as day is from night, and it is almost an impossibility to dance one to the music of the other. The original turkey trot was perform

Stand as erect as possible. Do not wave the arms, pnmp the elbows, or wiggie the shoulders.

Do not whirl or spin. Bearing these things aiways in mind it is a simple matter to acquire the easy, graceful swing that is a characteristic of the one step. In holding the lady do not wrap your right arm all the way around her. Best the right hand on the middle of her back, not on her shoulders, as this tends to throw her left arm up too high.

Bend the left elbow and bold her right hand on a level with the eyes and about three inches from the head Stand close to her, hut do not hold her tightly. The prime essential of good one stepping is to make every move correspond with your partner's so that you form an unbroken line whether dancing straight ahead, dipping or go-

ing from side to side. The first step is merely a walk in time to the music. Take steps in accordance with your partner's height. Another straightaway step that has found great favor in New York and London is the "lame duck." This is danced exactly as the name implies. The man dips on the right foot and takes the usnai step with the left. The action is the same as if one leg were a few inches shorter than the other. Above all things, do not make this jerky or draggy. It must be series of quick but billowy dips and is very attractive to watch when executed correctly.

A good step for rounding corners is taken from the tango. When nearing R corner turn the giri so that you are both facing in the same direction and standing side by side. The man's right arm should be around the giri's waist and his left and her right hand clasped in front on a line and about a foot from their heads. Take three steps forward in this position. At the end of the three steps the man must hold the step for a beat while the giri swings on her ieft foot and resnmes

Maxixe Step In the Trot

EVERAL of the more recent dances, such as the Brazilian Maxice, form the basis of some very graceful figures in the one step. In the picture is shown a Maxixe turn done to turkey trot time. The left hands are heid above the head, and the right bands are clasped behind the girl's back. In this way it is possible to turn the girl completely around on the turns and reverse the position. During the turn the man stands practically still, only moving his feet enough to keep in time.

### SOME FACTS IN REGARD

TO CRIMSON CLOVER Crimson clover is a cover and green manure crop of such value hat every farmer in the State of Kentucky could find use for it on

his farm. No other crop grown for similiar purposes possesses as many advantages as crimson clov-Seeding is cheap—an important consideration. It may be seeded late in the summed after small grain crops are removed or in cultivated crops after cultivation ceases. It protects the soil during the winter and spring and furnishes large quantities of material rich in nitrogen which can be plowed under in sufficient season to permit planting corn or other cultivated crop. It is in fact a crop which interferes with few of the regular crops commonly grown on the farm and yet capable of improving soil almost as much'as the longer lived red clover. While it is preeminently a soil improving crop, it will furnish fall and early spring pasture and will make considerable hay of fair quality. Red clover is proving a failure in so many cases that we must use something to take its place if we are to maintain the producticeness of our soils, and crimson clover is undoubtedly the best substitute we

Many farmers have had poo success with crimson clover, and this has led to the belief that it is not adopted to Kentucky conditions. Most of these failures were doubtless due to a lack of knowledge of the requirements of the crop and careless and thoughtless methods of seeding. Crimson clover will not succeed every year and the farmer should learn when to plant it and when not to It will succeed in most seasons, however, if rightly handled, and the crop is of such tremendous value that every farmer should make repeated tests with it until the learns how to grow it or proves decisively that it cannot be grown on his land. .The fol- the postoffice, lowing instructions will help the

Do not plant in corn or cultirated crops of any kind unless there is abundant moisture at the time of the seeding.

When planting alone prepare a good seed bed. A good seed bed Walter Ebel's wagon while he is one that is fine and made firm was coming down Peavine Ridge

Cover the seed carefully. Every seed not covered will probably be lost. Do not cover too deeply, however, or the seed may not get up. A clover drill is splendid for sowing crimson clov-

Do not sow later than the first September and preferably by the middle of August.

Get good seed. Buy it by sample and test it for germination. Plant 100 seeds in a box of clean sand and keep the sand moist. If less than 90 seeds grow, refuse to buy the seed.

Do not pasture too close in the fall, nor too late, for if you do it will certainly winter kill.

Do not plant on a poor thin piece of land without first fertilizing. In most cases an application of 200 pounds of acid phosphate per acre will be a satisfac tory treatment.

Do not plant on wet or poorly drained land. No clover will grow on such land.

### "Cured"

Mrs. Jay McGee, of Stephenville, Texas, writes; 'For nine (9) years, I suffered with womanly trouble. I had terrible headaches, and pains in my back, etc. It seemed as if I would die, I suffered so. At last, I decided to try Cardul, the woman's tonic, and it helped me right away. The full treatment not only helped me, but it cured nie."

TAKE

Cardul helps women in time of greatest need, because it contains ingredients which act specifically, yet gently, on the weakened womanly organs. So, if you feel discouraged, blue, out-of-sorts. unable to do your household work, on account of your condition, stop worrying and give Cardui a trial. It has helped thousands of women,—why not you?

Frequent inundations should be prevented by the proper control of able to abandon dangerous lands for a season, or if the infected area is not large it may be percasses of animals that have died either by deep burial or preferably by burning. If the animal dies in the pasture it should be burned on the spot, and the ground in the immediate neighborhood thoroughly disinfected with chloride of lime or an abundance of ordinary unslacked lime. If, however, it becomes necessary to remove the carcasses to some other point, it should be remembered that the ground over which it moved, and everything with which it comes in contact may become infected and requires thorough disinfection. For utensils, sheds, etc., a five per cent. solution of chloridebot lime is efficient if they are thorfor one hour or longer.

When the carcasses are buried care should be taken that the drainage from the grave does not infect new pastures. It is always desirable to cover the bottom of the pit with lime or other under certain conditions; be impracticable to the farmer and in

This modified method has been adopted by the U. S. When it is considered that before vaccination was employed in infested districts ten per cent, of all cattle died from this disease before reaching maturity, the practical value of preventive vaccination against black leg should be unquestioned among cattle raisers.

### Pleasure and Protection

"One of the best reasons why I would not be without telephone service," writes a Georgia farmer, "is the pleasure it gives my wife and the knowledge that while I am away, she has the protection that the telephone gives.

On the farm the telephone dispels loneliness and is the means of bringing help in any emergency that may arise.

If you haven't a telephone on your farm see the nearest Bell Telephone Manager or write for our free booklet and learn how little this service costs.
